

Pratik Jadhav

Data Analyst | SQL | Python | Power BI | Data Automation

Pune, Maharashtra | +91 9767320053 | pratikjadhav.job@gmail.com

PROFESSIONAL SUMMARY

Results-driven **Data Analyst** with hands-on experience in **SQL, Python, Power BI, Excel automation, ETL pipelines, and data visualization**. Proven ability to clean, transform, and analyze large datasets to deliver actionable business insights. Experienced in freelance analytics projects, dashboard development, academic research systems, and stakeholder reporting. Strong problem-solving, communication, and data storytelling skills.

TECHNICAL SKILLS

- **Data Analysis & Visualization:** Power BI, DAX, Power Query, KPI Dashboards, Data Storytelling
 - **Databases & Querying:** SQL, MySQL, PostgreSQL, Stored Procedures, Views, Data Modeling
 - **Programming:** Python (Pandas, NumPy, Matplotlib), API Integration
 - **Data Engineering:** ETL Pipelines, Data Cleaning, Data Validation, Automation Workflows
 - **Spreadsheets:** Advanced Excel, Google Sheets Automation
 - **Tools & Platforms:** Git, GitHub, JIRA, Docker, GCP (Vertex AI)
 - **Analytics Concepts:** EDA, Statistical Analysis Basics, Machine Learning Fundamentals
-

PROFESSIONAL EXPERIENCE

Freelance Data Analyst / Developer | 2024 – Present

- Delivered **15+ data analytics and automation projects** for academic and client use cases, including dashboards, ETL workflows, and analytics tools.
- Designed **Power BI dashboards** using SQL, DAX, and Power Query to analyze trends, KPIs, and performance metrics.
- Built **data pipelines** integrating SQL databases, APIs, and Excel files, improving reporting efficiency by **30–40%**.
- Developed **machine learning and data science projects** (M.Tech level) involving EDA, model building, and result interpretation.
- Created complete **technical documentation**, deployment workflows, and analytics reports for stakeholders.

Lecturer – Python & Data Visualization | Trinity Polytechnic | 2025 – Present

- Teach **Python, SQL, and Data Visualization** concepts to **150+ students annually**.

- Conduct hands-on workshops focused on **data cleaning, analysis, and dashboard creation**.
- Mentored **25+ analytics projects** using Python and Power BI.
- Improved curriculum by introducing **real-world datasets and problem-solving modules**.

Trainee Engineer – Data Analytics | Incube 8 Engineering | 2024 – 2025

- Developed **KPI and performance dashboards** to support business reporting.
- Built **ETL pipelines** extracting data from databases, APIs, and Excel sources.
- Optimized **SQL queries, procedures, and views**, reducing report generation time by **25%**.
- Performed **data cleaning, validation, and quality checks**, reducing data errors.

Backend Operations Intern | Tailoring Turba | 2023 – 2024

- Automated **Excel-based workflows**, saving **6+ hours per week**.
- Supported backend operations, order processing, and personalization data management.
- Improved data templates and tracking systems for operational reporting.

PROJECTS

RAG-Based Resume Analyzer

- Built an **AI-powered resume evaluation system** using Gemini API.
- Implemented **ATS scoring, JD matching, and skill gap analysis**.
- Developed an interactive **Streamlit dashboard** for insights and recommendations.

E-Commerce Analytics Dashboard (Power BI)

- Designed an end-to-end **Power BI dashboard** analyzing revenue, customers, and product performance.
- Modeled and transformed Excel data using **DAX and Power Query**.
- Reduced manual reporting effort by **40%** through automation.

Face Recognition Attendance System

- Developed a **Python-based face recognition system** for **100+ users**.
- Automated attendance tracking, timestamping, and email notifications.
- Reduced manual attendance effort by **85%**.

EDUCATION

B.E. Computer Engineering – Sinhgad Academy of Engineering, Pune (2020–2024)

HSC – Science – Navbharat Junior College, Mul (2019–2020)

CERTIFICATIONS

- Machine Learning & NLP Bootcamp – Krish Naik
- Advanced Software Engineering Simulation – Forage
- SQL Bootcamp – TechTFQ
- Complete Web Development Bootcamp – Udemy
