

Anuradha Arekar

Pune • arekanuradha0504@gmail.com • +919322293942

Software Developer seeking to join a dynamic team. I bring a passion for crafting **clean, scalable** web solutions using **front-end** (HTML, CSS, JavaScript) and **back-end** technologies. I'm a fast learner, always looking to improve with a focus on **best practices** and **performance optimization**. **Communication** and **collaboration** are key for me, ensuring projects run smoothly.

EDUCATION

B.E	Jul 2020 - Jun 2024
PDEA College Of Engineering	GPA: 8.75
HSC	Jul 2019 - Mar 2020
Inspire Junior College	GPA: 73.69
SSC	Jul 2017 - Mar 2018
St. Anne's High School	GPA: 94.60

SKILLS

Programming Language : JAVA

Frontend Technologies: HTML, CSS, Javascript, React.JS, BootStrap, Tailwind CSS

Backend Technologies: SpringBoot, Node.js, SQL, MongoDB, GIT, Github

Data Visualization Tools: PowerBI, Tabaleau

PROJECTS

STOCK PRICE PREDICTION Aug 2023 - Sep 2024

- Python Stock Price Prediction Solution (Back-End & JavaScript): Developed a Python-based tool utilizing pandas for historical stock data analysis and scikit-learn/deep learning frameworks for model building.
- Performance-Focused Model (Best Practices): Built a model to predict future stock prices, emphasizing performance and accuracy. This approach aligns with best practices in financial modeling.
- Data-Driven Investment Decisions (Communication): The model empowers users with insights for potentially informing investment strategies. This focus on data-driven decision making fosters clear communication of financial concepts.

CNC based Automated Writing and Drawing Machine for complicated 2D Structures Aug 2023 - May 2024

- Designed and built a CNC machine for automated, precise 2D drawing and writing.
- Collaboratively developed user interface and control system using web technologies (HTML, CSS, JavaScript) and back-end programming.
- Ensured scalability and performance optimization through best practices.

E - COMMERCE PLATFORM Nov 2023 - Dec 2023

- MERN Stack E-Commerce Platform (Scalability & Security): Built a secure and scalable online store (React.js/Node.js) for user login, product listings, payments, focusing on best practices for clean and maintainable code.
- Streamlined User Journey (Performance): Optimized the online shopping process for user experience and efficient customer interaction.
- Enhanced Functionality & Integration: Implemented secure user authentication, product listings, shopping cart, and secure payment processing.

RESTFUL API FOR BOOKSTORE Mar 2023 - Apr 2023

- Secure & Scalable Bookstore API (Back-End): Built a secure and scalable RESTful API using Node.js for CRUD (Create, Read, Update, Delete) operations on book data, ensuring efficient data management.
- Secure User Access (JavaScript & Best Practices): Implemented JWT authentication for secure user access, leveraging JSON Web Tokens for robust authorization.
- Clear Communication & Collaboration: Enhanced API interaction and provided comprehensive documentation using Swagger. This fosters clear communication and collaboration with developers

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

Member	Sep 2022 - Sep 2023
Arts Club	Pune
Performed in Group Dance for Teachers Day Celebration	
Volunteer	Jul 2022 - Jul 2023
NSS Unit	Pune
- Organized Blood Donation Camp. - Organized Tree Plantation Drive.
